Subject: Intent to submit 2017 exceptional event days for Pinehurst

Hi Matt and Justin,

Following up on our Initial Notification call on Feb. 1, where we discussed potential EE demonstrations for Franklin and Pinehurst, Idaho DEQ can now provide more details on the Pinehurst demonstration. We intend to submit the following days for PM_{2.5} and PM₁₀ due to wildfire in 2017. Regulatory significance for PM_{2.5} would apply to the West Silver Valley NAA for annual PM_{2.5} and the Clean Data Determination that is pending. Regulatory significance for PM₁₀ would pertain to the Pinehurst PM₁₀ NAA LMP.

Date	PM_{2.5}	PM₁₀
9/4/2017	144.9	
9/5/2017	222.2	
9/6/2017	147.1	169.6
9/7/2017	123.8	149.8
9/8/2017	116.7	143.7

The current plan is to send the demonstration out for public comment on May 1 so we can submit the final document to EPA by June 15, as previously discussed. We will submit the Franklin demonstration for consideration at the same time. A recalculation was made on the Franklin design value that determined that an EE demo was NOT needed AFTER the draft of the Franklin demo was complete, so we're going to submit it anyway.

Let me know if you would like to discuss further.

Sara
